

## TechJutsu IAM Specialist

### Architect and Implementer

#### Why TechJutsu

TechJutsu offers a flexible work environment, allowing you to focus on the “life” part of work-life balance. Our Team collaborates on everything from blog posts to the implementation of Identity and Access Management (IAM) solutions to this very job description, building each other up and helping every team member put their best work forward!

**Our Commitment to a Diverse Culture** We believe in the power of diversity and we’re dedicated to creating a diverse, equitable and inclusive environment at TechJutsu. We ensure equal opportunity for all applicants and encourage people of all visible minorities, including Indigenous applicants, and those of any religion, sex, age, ability, sexual orientation, gender identity or expression to apply. A Place for all Genders in Tech Gender diversity and equality benefits everyone. We’re committed to supporting all gender identities and expressions in tech by sharing stories and advocating for equality.

#### Job Description

You will work as an IAM implementer and architect as part of TechJutsu’s team of IAM ninjas.

#### Qualifications

##### You have

- 5+ Years of IAM experience
- Certifications in one or more IAM solutions
- Willingness to learn and adapt
- Strong ability to work on a team and collaborate
- Openness to taking guidance and continuous improvement feedback
- Strong communications skills as applied to architecture and technical documents (you could explain your work to anyone from a 5-year-old to someone with 20 years of IAM experience)
- An ability to guide clients to the best solution for their needs

##### Even Better:

- You have a cat (please attach a picture in your application)
- You have development experience

#### Additional Information

TechJutsu is a work-from-home environment, as such a measure of self-discipline is required.

We are a collaborative group, and you will be interacting with your teammates over video conference daily.

If you show an aptitude and drive, there is an opportunity to develop the role in a direction that both adds value to the company and develops your professional skill set.

TechJutsu is an IT security services start-up company with a highly entrepreneurial culture and opportunity for growth.

While we sincerely appreciate every application received, only those candidates selected for an interview will be contacted.
